Proposed Solution

Date	03 November 2025
Team ID	NM2025TMID03205
Project Name	Lease Management
Maximum Marks	2 Marks

Solution Description:

To prevent missed rent payments and lease renewal deadlines, the Lease Management System provides an automated solution for tracking leases. It allows property owners to register tenants, upload lease agreements, set payment cycles, and configure renewal alerts.

The system sends automatic reminders to tenants and landlords before payment due dates and lease expirations, ensures secured digital storage of leased documents, and provides an organized view of all active lease agreements.

This solution improves transparency, ensures timely communication, avoids manual errors, and creates a smooth rental experience for both tenants and landlords.
